Email: obaiddullahman7@gmail.com LinkedIn: www.linkedin.com/in/obaiddullah72/

As an aspiring Flutter developer, I have honed my skills through freelance projects, semester assignments, and hands-on experience with Flutter development. Proficient in Dart and other programming languages, I approach challenges with creativity and precision. My expertise includes building responsive UIs, optimizing app performance, and working with Firebase and local databases for seamless app functionality.

Currently, I am enhancing my practical experience by focusing on Firebase integration and local database management. My next goal is to expand my knowledge and proficiency in API integration, enabling me to develop dynamic and data-driven applications.

Experience

Python (Django) Developer, Samaritan Technologies

Dec 2024 – Present

- Developed and maintained backend applications using **Django** and **Django Rest Framework (DRF)**, ensuring robust and scalable APIs for seamless data interaction.
- Designed and implemented **RESTful APIs** to support frontend integrations and enhance functionality for various client applications.
- Utilized **Python** libraries such as **NumPy**, **Pandas**, and **OpenCv** for data processing, task scheduling, and enhancing backend performance.
- Collaborated in an agile environment to debug, test, and optimize backend systems, ensuring high performance and reliability.

Flutter Developer, Samaritan Technologies (Hybrid Job)

July 2024 – Dec 2024

- **Developed cross-platform mobile applications** using Flutter, ensuring seamless performance across Android and iOS devices with an emphasis on responsive UI/UX design.
- **Integrated third-party APIs and backend services**, including authentication, cloud storage, and real-time data, to enhance application functionality and scalability.
- **Collaborated within an agile environment**, working closely with product managers, designers, and developers to meet project timelines and align features with client requirements.
- **Performed debugging, testing, and optimization** to identify and resolve issues, improving app stability, performance, and user experience across multiple platforms.

EDUCATION

2023: Courses, Insider

1. Data Science
2. WordPress

2018 - 2022: Bachelor of Science in Computer Science, Superior University, Lahore

- I have completed my graduation in Computer Science with **3.59 CGPA & Gold Medalist**.

2016 - 2018: Intermediate in Engineering, Punjab Group of Colleges, Lahore

SKILLS

- **Software/Tools:** Android Studio, Adobe XD, PyCharm, Jupyter Notebook, Microsoft Office, VS Code
- **Soft Skills:** Team Management Skills, Problem Solving, Leadership, Self-Learner

CORE SKILLS

- **Programming Languages:** Flutter, Python, Dart, Django
- **Developer Tools:** VS Code, Android Studio
- **Databases:** Sqlite and Firebase
- **CMS:** WordPress
